Jun Xue

e21201068@stu.ahu.edu.cn | 086-18365597835

Jiulong Road, Hefei, Anhui, China, 230601

EDUCATION

Anhui University **09/2021-Present**

Computer Science and Technology

M.Eng. in *Computer Science & Technology*

Courses: Machine Learning, Neural Networks, Combinatorial Mathematics, Modern signal processing technology, Pattern Recognition.

Anhui Science And Technology University **09/2016-06/2020**

School of Electronic Science and Technology

B.Eng. in *Electronic Science and Technology*

Courses: Analog Circuits, Digital Circuits, Circuit Analysis, C programming.

RESEARCH PROJECTS

Fake speech dectection **09/2021- Present**

- Finding discriminative acoustic features for anti-spoofing
- Modeling fake speech dectection tasks using deep neural networks
- Building a generalized and generic framework for fake speech detection.

Knowledge distillation

- Explore knowledge distillation methods for anti-spoofing
- Building high-performance, low-complexity fake speech detection systems.

RESEARCH

Current Work

- Fake speech detection
- Knowledge distillation
- Self-supervised learning

Papers
